Sticklers EB CleanStix<sup>®</sup> Expanded Beam  
Fiber Optic Swab (MCC-EB12)

Works best when used with Sticklers<sup>™</sup> Fiber  
Optic cleaning fluid (#POC03M or the new,  
economy-sized #MCC-POC10M)

Expanded beam ("EB") connectors are famous for  
their high tolerance for dirt and debris, but  
tolerance does not mean immunity (such as  
particulate, moisture, haze, etc.). Expanded beam  
fiber optic connectors are designed to operate in  
harsh environments such as combat situations or  
at sea.

The geometry of EB lenses mean that standard  
fiber optic cleaning tools simply will not work.

#### Great for Cleaning

- Expanded Beam Fiber Connector Male
- The tip has a unique, patented geometry that gracefully fits over the lens of the EB connector
- EB has a porous, thermally-stretched, variable density polymer tip mounted in a sturdy plastic handle.
- The tip uses a geometry that gracefully fits over the lens of the EB connector and removes liquids and particulate.
